

Detention Risk Assessment Instrument (DRAI)

The DRAI is a short questionnaire that can help determine whether pretrial detention is warranted when law enforcement requests a youth be held in a Juvenile Detention Facility. Additional Security is needed to access the Maintain DRAI page.

1. From the desktop's menu, select Actions drop-down and select Maintain DRAI to launch the page.

2. Click the [Person Search](#) hyperlink to select the youth being referred.

A screenshot of the 'Maintain DRAI (Detention Risk Assessment Instrument)' page in Internet Explorer. The page has a dark blue header with the eWiSACWIS logo and links for Print and Help. Below the header is a light blue section titled 'Basic' with a 'Youth:' label and a 'Person Search' hyperlink. Below this is another light blue section titled 'Results' containing a table with columns: Date, Time, DRAI ID (with a dropdown arrow), Screener, Actual Outcome, and an empty column. At the bottom right of the page are 'Create' and 'Close' buttons.

3. On the Person Search page, fill in at least the Last Name OR Person ID to complete and click Search.

- First Name, SSN, DOB, Gender, Street, City, Zip Code, Incl. AKA, and Search Precision can be used to help reduce the number of results in the Persons Returned section.

Detention Risk Assessment Instrument (DRAI) page

The Detention Risk Assessment Instrument (DRAI) page is modeled on the DRAI form DCF-F-5481-E, which was adapted from a document created by seven Wisconsin counties in 2015, and replaces filling out the paper form. A paper or electronic version of the DRAI saved online, can be launched from the Options drop-down and will be pre-filled with all the information entered on the page at any given time.

1. A newly created Detention Risk Assessment Instrument (DRAI) page will pre-fill the Youth Information section with the Youth, DOB, Gender, Race, Ethnicity, Date and Time of Intake, County of Residence. The Youth# is optional and may support information tracking by the county.
 - a. The Youth field will pre-fill the youth's name and person ID
 - i. Click the hyperlink to launch Person Management in edit mode when the page is editable.
2. The Referral Offense(s) section is used to enter the offenses listed at the time of the referral.
 - a. Offense Date is the date the offense occurred.
 - b. Counts are the number of counts for each offense.
 - c. Statute/Description/Classification will offer a pick-list of matching offenses once at least 3 characters or numbers are entered from an identified offense.
 - d. Modifier(s) and Enhancer(s) [Select](#) hyperlink is used to identify modifiers or enhancers to an offense. A page will launch to check the appropriate identifiers.
 - e. Most Serious Alleged Offense? identifies the most serious offense for the referral.
 - i. Offense Date, Counts, Statute/Description/Classification, and Most Serious Alleged Offense? are required to complete the DRAI.
 - f. The [Delete](#) hyperlink will delete any row entered.

- i. Clicking this hyperlink will generate a pop-up asking, “Are you sure you want to delete this Offense?”.
1. Click Yes to delete the row or click No to return to the unchanged page.
- g. The Insert button will add as many offense rows are needed.

Note: Two offense lines are already inserted into the page on creation. If the second line isn’t needed, it will need to be deleted prior to completing the form.

3. The Scoring section is used to score the most serious alleged offense. Once checked in the above section, the Statue/Description/Classification value is displayed in B1.
4. B1-B5
 - a. Select the appropriate value for the youth. Like the paper form, each value has a corresponding score. Each question’s score will calculate on the right side of the section and add or subtract from the Total Score. This score is used to determine the Initial Outcome value.
5. B1 has a Details hover that displays each category’s score and examples of common offenses.
6. B5: Aggravating Factors add 1 point for each check selection.
7. B5: Mitigating Factors remove 1 point for each check selection.

Note: It’s possible to have a negative value in the B5 Score: field. Total Score: will calculate based on the selections made in B1 – B5.

8. B6: Initial Outcome will display the result of Total Score in the Scoring section. Possible values are:
- Released (Score 0 to 9)
 - Alternative (Score 10 to 16)
 - Detained (Score 17 and up)

Secure Detention Registry

Every Detention Risk Assessment Instrument (DRAI) page that has a B8: Actual outcome value of Detained (Score 17 and up) and the Completed checkbox checked upon save will generate a Juvenile Secure Detention Registry (JSDR) record. When created, the JSDR record will pre-fill the information from the Detention Risk Assessment Instrument (DRAI) page including all the information in the Youth Information section and Referral Offense(s) sections. As with the YJ Referral, all pre-filled information can be modified as needed.

The other pre-filled fields include:

- Facility Name and Admit Date and Time in the General Information section
 - Referring County, Court Name, DRAI Score, DRAI override, and [DRAI](#) hyperlink in the Offense Information section.
 - Linked YJ Referral(s): [Referral ID](#) hyperlink in the County Review/Outcomes section.
1. From the Maintain Secure Detention Registry page, enter the Admit Date:, Last Name:, and First Name: fields and click Search to search out the youth. DOB, and Filter By: (facility name) can assist in reducing results.
 2. Click the [Edit](#) hyperlink to open the Secure Detention Registry page that was created.
 3. Review the pre-filled information for accuracy before completing the SDR.

Note: Once the Secure Detention Record is created, the associate tasks will generate as appropriate.

Case

Once the YJ Referral is linked to a case, the corresponding [YJ Referral](#), [DRAI](#), and Juvenile [Secure Detention Registry](#) hyperlinks will display in the Youth Justice section of the Case.

Note: The YJ Referral, DRAI and JSJR will need to be located independently before the YJ Referral is linked to a Case.
